**INGENUITY MEETS DESIGN,
SCIENCE MEETS BUSINESS**

SCC Munich: New space for new ideas

Ingenuity meets design, science meets business - the new Science Congress Center Munich welcomes event organisers and guests with possibilities well beyond the ordinary. The Garching Research Centre is home to leading research institutes and is also a lively place, full of quality of life. In this environment, the SCC is the ideal launch pad for successful international congresses, conferences, trade fairs and events.

One of the largest naturally lit auditoriums in the world, 14 excellently equipped event rooms of various sizes and 1,600 square metres of foyer space enable conferences with up to 1,300 participants in plenary, exhibitions and trade fairs, as well as concerts, product presentations and events of all kinds. Of course, you can also book the entire SCC Munich, including the exhibition foyers, for your major event.

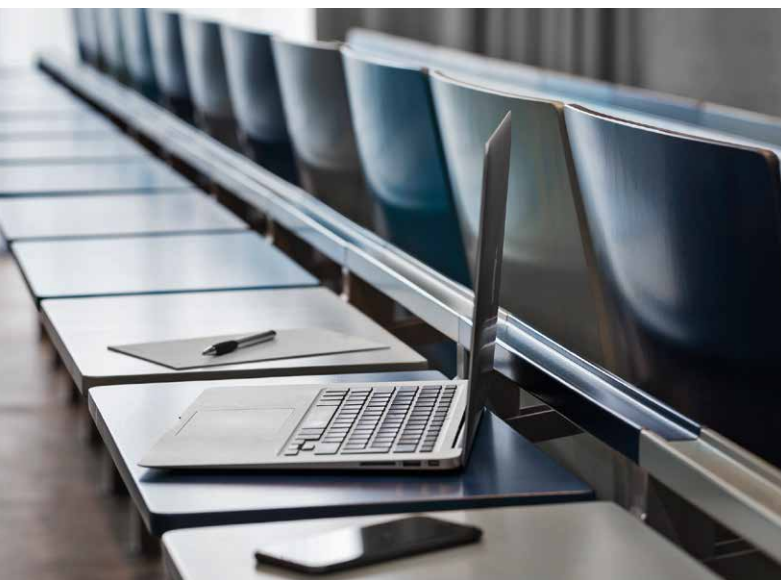

Full-service for complete success

We support you with everything: from custom-equipped conference rooms, to the provision of all required materials and technical aids, as well as accommodation for your guests - all from a single source. Our highly-skilled service and kitchen team provides excellent, creative and healthy food and drinks, including many regional specialities.

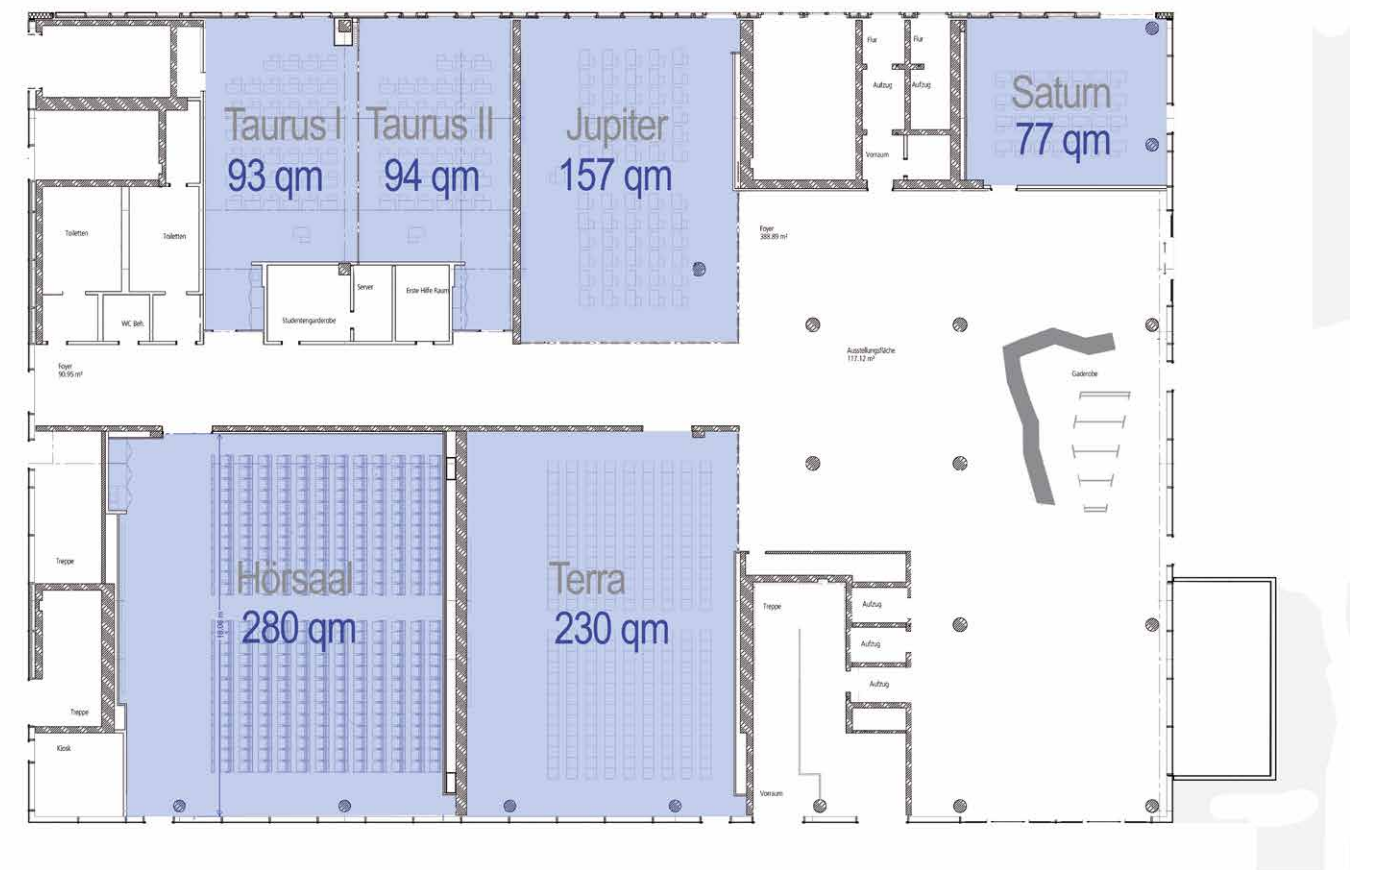

Short distances, long on choice

The modern, light-flooded complex of the SCC also houses two hotels - the Courtyard by Marriott Munich Garching and the Stellaris Apartment Hotel, as well as numerous shopping facilities and restaurants - in short: an attractive environment for science to live and thrive in.
